Summary

2015年11月10日

Types of data: integers

Four or Five or Six or Seven Thousand Dollars' Worth of Money Put Out Every Day

Only one of the 100,000 people who have been diagnosed with AIDS in the United States has been cured.

One of the purposes of the above analysis is to correct a major defect in the current political discourse: the failure to consider directly or indirectly the role of the flow of information in the political process. The flow of information is a key factor in the political process, and it is often the only factor that can be manipulated by the political actors. The flow of information is a key factor in the political process, and it is often the only factor that can be manipulated by the political actors.
